PROFESSIONAL SUMMARY

Java Full-Stack Developer with hands-on experience in building and deploying responsive web applications using Java, Spring Boot, Angular, and MySQL. Skilled in developing RESTful APIs, implementing JWT-based authentication, and managing relational databases using Hibernate/JPA. Strong foundation in Object-Oriented Programming (OOP), Data Structures, and clean layered architecture, backed by practical experience in independent commercial project delivery and enterprise-scale technical mentoring.

TECHNICAL SKILLS

Backend: Core Java (Java 8+), Spring Boot, Spring Security (JWT), Hibernate, Spring Data JPA, REST APIs

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3

Database: MySQL, SQL, JPQL, Database Design & Query Optimization

Tools & Fundamentals: Git, GitHub, Maven, Postman, OOPs, DSA, Exception Handling, Vercel, Railway

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Freelance)

May 2026 – Present

Self-Employed

- Engineered and deployed custom web applications for commercial clients—including ExportIndiaHandicrafts, PaintIndia, and AKV Technology—building dynamic corporate portals and product catalogs utilizing Angular.
- Developed scalable backend services and automated tools using Java, Spring Boot, and REST APIs to streamline business operations for independent clients.
- Designed normalized MySQL database schemas and implemented full CRUD operations using Spring Data JPA and Hibernate for managing business records and billing data.
- Managed the end-to-end software development lifecycle, implementing version control using Git and deploying on cloud platforms like Vercel and Railway.
- Facilitated targeted corporate training sessions, providing specialized technical mentorship to corporate employees on advanced full-stack development and best practices.

Senior Faculty (Java Backend SME)

Sep 2025 – Jan 2026

Anudip Foundation

- Mentored and evaluated a technical cohort of 300+ engineers, driving best practices in enterprise Java and backend system design.
- Architected complex Java and Spring Boot backend solutions to demonstrate enterprise-level software design and modular architecture.
- Conducted rigorous code reviews, debugging, and performance optimization for full-stack applications, ensuring production-ready code quality.
- Led technical problem-solving sessions focusing on system architecture, relational databases, and secure REST API development using Spring Security and JWT.

Java FSD Technical Trainer

Nov 2024 – Aug 2025

CertED Technologies

- Client Engagement:** Contracted as a dedicated technical resource to Anudip Foundation to provide hands-on mentorship to 500+ developers.
- Designed full-stack development architectures and guided the implementation of robust web applications utilizing Java, Angular, and Spring Boot.
- Spearheaded technical onboarding initiatives by simulating real-world agile development environments and software development lifecycles.
- Directed pair programming and architecture planning sessions to transition junior talent into self-sufficient full-stack contributors.

KEY PROJECTS

Personal Portfolio Web App | Angular, Spring Boot, MySQL

Live Demo | UI Repo | API Repo

- Built a full-stack application with secure REST APIs for automated contact management and inquiry handling.
- Deployed the application using a clean layered architecture across Vercel (frontend) and Railway (backend).

Secure Finance Dashboard | Java, Spring Boot, MySQL, JWT

GitHub Repo

- Developed production-ready REST APIs with strict role-based access control (ADMIN, ANALYST, VIEWER).
- Implemented comprehensive input validation, global exception handling, and DTO mapping.

REST API with Pagination & Validation | Spring Boot, JPA, MySQL

GitHub Repo

- Built pagination and sorting mechanisms for efficient dataset retrieval using optimized JPQL queries.
- Followed strict REST standards using proper HTTP status codes and ResponseEntity wrappers.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (Computer Engineering) | Savitribai Phule Pune University

2024

Certifications: Learn Spring Boot in 100 Steps (Udemy), Java Complete Course for Beginners (Udemy)
