Mumbai, India | +91 7709594543 | shivamvishwakarma1432@gmail.com
Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Java Full-Stack Developer with hands-on experience building scalable, production-ready web applications using Java, Spring Boot, Angular, and MySQL. Proven ability to architect secure REST APIs, implement JWT authentication, and deploy layered architectures for commercial clients. Strong foundation in object-oriented programming, database optimization, and software engineering principles, with a track record of delivering end-to-end freelance solutions.

TECHNICAL SKILLS

Backend: Java 8+, Spring Boot, Spring Security, Hibernate/JPA, REST APIs

Frontend: Angular, HTML5, CSS3, Tailwind CSS

Database: MySQL, MongoDB, JPQL, Query Optimization

Tools & Deployment: Git, GitHub, Postman, Vercel, Railway, Hostinger

PROFESSIONAL EXPERIENCE

Full-Stack Software Developer

Jan 2026 – Present

Shivam Web Agency (Freelance/Independent Contractor)

- Built and launched commercial web platforms, including a distributor catalog for PaintIndia, utilizing a custom Spring Boot backend and technical SEO optimization.
- Developed dynamic, responsive user interfaces for various web applications using Next.js, React, Tailwind CSS, and Angular.
- Architected modular backend structures inspired by enterprise ERP systems to manage scalable business operations and data flow.
- Engineered automated PDF invoice generation modules for service contractors handling complex billing and line-item processing.

Senior Faculty (Java Backend Developer & SME)

Sep 2025 – Jan 2026

Anudip Foundation

- Designed and demonstrated production-style backend applications using Java, Spring Boot, REST APIs, Hibernate/JPA, MySQL, and layered architecture.
- Diagnosed REST API failures, optimized SQL queries, and resolved backend performance issues.
- Mentored over 300 individuals in Java backend development, conducting rigorous code reviews focused on clean architecture and robust exception handling.
- Implemented secure authentication workflows using Spring Security and JWT.

Java Full Stack Trainer (Backend Mentor)

Nov 2024 – Aug 2025

CertED Technologies

- Delivered technical guidance to over 500 learners on Java Backend Development, focusing on Spring Boot, REST APIs, Hibernate/JPA, and MySQL.
- Troubleshoot and debugged production-style backend applications, consistently resolving complex REST API failures and database integration issues.
- Conducted extensive Java code reviews, strictly enforcing clean architecture, object-oriented programming (OOP) principles, and performance optimization.
- Guided the database design, exception handling, and API integration phases for multiple scalable backend projects.

KEY PROJECTS

Personal Portfolio Web App | Angular, Spring Boot, MySQL

Live Demo | UI Repo | API Repo

- Built a full-stack application with secure REST APIs for automated contact management and inquiry handling.
- Deployed the optimized layered architecture across Vercel (frontend) and Railway (backend).

Secure Finance Dashboard | Java, Spring Boot, MySQL, JWT

GitHub Repo

- Developed production-ready REST APIs with strict role-based access control (ADMIN, ANALYST, VIEWER).
- Implemented comprehensive validation, global exception handling, and DTO mapping.

REST API with Pagination & Validation | Spring Boot, JPA, MySQL

GitHub Repo

- Built pagination and sorting for efficient large dataset retrieval using optimized JPQL queries.
- Followed strict REST standards using proper HTTP status codes and ResponseEntity.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (Computer Engineering) | Savitribai Phule Pune University

2024

Certifications: Learn Spring Boot in 100 Steps (Udemy), Java Complete Course for Beginners (Udemy)
